

PERMISSIVE ACCESS

The farmland that forms this Habitat agreement is being sensitively managed for nature conservation. The land management centres around an annual cutting regime, designed to create a rough tussocky grass structure and 'thatch' which forms ideal hunting habitat for owls. This sympathetic land management has been very successful and has resulted in; Barn Owls, Long eared Owls, Short eared Owls, Tawny Owls and Little Owls all using the site. Other birds that can be seen on the site include Snipe, Skylark, Woodcock, Lapwing and Quail.

This access has been provided under the Department for Environment, Food & Rural Affairs' farm conservation schemes as managed by Natural England, which help farmers and land managers protect and improve the countryside, its wildlife and history. It is permissive access and no new rights of way are being created. Existing rights of way are not affected. Please follow the Countryside Code and observe any other requirements shown above. Do not disturb wildlife, livestock or other visitors and in particular keep dogs under control. This is working farmland so please take care; people using this site do so at their own risk. Access ends on 30th September 2016.

For access related queries please call the Access Management Unit on 01902 693218 (Office Hours).
 For all other Defra related queries please contact the Defra Helpline on 08459 335577 (Office Hours).
